Mountain Weather Forecast

Southwest Highlands

Including Ben Nevis, Glen Coe and the rest of Lochaber, Argyll including the Isles, Loch Lomond, Trossachs and Arran
Forecast valid from 06:00 on Tuesday 09 Nov 2021 until 23:59 on Wednesday 10 Nov 2021

Forecast Issued on Tuesday 09 Nov 2021 at 01:59 by Met Office Aberdeen

Confidence: Some uncertainty over how quickly cloud clears the south this morning, otherwise high through the coming days for bright, breezy conditions with occasional showers but lower from Friday with considerable doubt over the track of a low close to Scotland.

Headline for Tuesday 09 Nov 2021: Sunny spells with a few showers, wintry on summits later. Breezy.

Forecast for Tuesday 09 Nov 2021

Weather: Any lingering cloud and patchy rain across the Trossachs soon clearing to leave a bright day with sunny spells. A few showers this afternoon becoming more frequent and occasionally heavy this evening and turn increasing wintry over the higher summits.

Chance of cloud free mountain/hill tops above 800m: Around 75%, falling to 25% for a time in the evening.

Visibility: Occasional, becoming periods of cloud for a time in the evening, above 600-750m. Otherwise visibility very good or excellent, but several kilometres in overnight rain and any snow showers

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Increasing chill effect through the day. Gusts around 55mph over ridges and summits.

Forecast for Wednesday 10 Nov 2021
Weather: Clear or sunny spells and isolated showers, these falling mainly as snow on the Munro's. Showers become more frequent in the evening and may develop into a longer period of rain or snow through the evening.

Maximum wind: Southwesterly 25-30mph, with gusts around 50mph over ridges and summits through much of the day. A significant chill effect is expected.

Chance of cloud free mountain/hill tops above 800m: Around 75%, chances falling during the evening.

Visibility: Occasional above 600-750m. Otherwise visibility very good or excellent falling to just a few kilometres in snow showers and in any more persistent rain and snow in evening.

Temperature: **Glens:** Around plus 2 or 3 Celsius at dawn rising to plus 10 or 11 Celsius by day
At 800m: Around plus 3 or 4 Celsius
Freezing level: Around 1200m, rising a little during the evening
